Benefits

For users

- Avoid gaps in Jira and email workflows
- Save time when handling your emails
- Easy to set-up

For companies

- Increase adoption of Jira throughout your company
 - Users are more likely to use Jira in the familiar Microsoft Outlook environment
 - The Jira look and feel makes it easy to use the app without training
- Don't worry about compatibility: The Outlook Email for Jira app works on all devices

No more scheduling madness! Our Outlook Meetings for Jira app helps you to easily schedule a meeting from Jira or Jira Service Desk.

See availability

In your Jira issue, you can clearly see whether the user is available for a call right away. If not, it shows you the next available slots to set up a meeting, even for multiple users and time zones.
