

YASOON

Let's grow
together!

Connecting Microsoft & Atlassian

At yagoon, we develop advanced apps that link Microsoft Outlook with Atlassian software, making our 2,500+ customers' daily work easier, more productive and more transparent.

As an Atlassian Top Vendor from Germany, we're technical experts for Atlassian's and Microsoft's product ranges. With years of experience in add-in development, we harness the latest technologies to craft a more productive workplace.

An illustration showing three white envelope icons connected by a dotted line that forms a loop, with a blue cloud icon also connected to the line.

Outlook Email for Jira

Constantly switching between Outlook and Jira is both time-consuming and annoying. The yasoon Outlook Email for Jira app is an extension of your email inbox, letting you intuitively access all relevant Jira features right from Outlook.

Outlook Meetings for Jira

No more scheduling madness! Our Outlook Meetings for Jira app helps you to easily schedule a meeting from Jira or Jira Service Desk.

See the availability of the reporter in the issue and send out an Outlook calendar invite right from Jira. A comment with the meeting information will be added to the issue automatically. All it takes is one click.

Your benefits as a partner

Your customer is using Jira or Confluence? Our products are essential for success when implementing Atlassian software in Microsoft-based companies.

Use us to
open doors

If your customer is a Microsoft Office power user, they'll be looking into integrations when choosing Atlassian products. Make their decision for Jira and Confluence easier by bundling our product that connects to their Microsoft world.

Help your customer
to increase adoption

Their colleagues working in commercial functions depend on Outlook and will adopt Jira and Confluence a lot quicker if they can be integrated into their daily routine. This maximizes usage of Atlassian products.

Get your sales
commission

We at yasoon know about the value you bring into the Atlassian Ecosystem through hard work and great effort, so of course we also offer you your Atlassian Partner Program discount.

Get started!

We're happy to assist you in bundling our products.

Try it Yourself

Want to test our apps in your own company? We'll hook you up with free licenses you can use in your team.

You don't use Microsoft Outlook? No problem: We are currently working on offering you an individual demo account to test our apps - stay tuned!

Need more information for your customer?

Our training material gives you all the relevant information you need to be prepared for your customer's questions. Download it on yasoon.com/partner
